

**Cordially invites you to join us for the
NBTS Social at the *SCIENCE CLUB***

When: Tuesday, November 18, 2008
6:30 - 8:30 pm

Where: **The Science Club**
1136 19th St. NW (Between L & M Street)
Washington, DC 20036
(202) 775-0747

Metro: Farragut North or Dupont Circle (Red Line)
Farragut West (Orange & Blue Lines)

The art nouveau logo over the door of the imposing brownstone on 19th Street NW says "Science Club." Passersby might wonder what lurks behind the heavy doors and etched glass windows -- a place where men and women in lab coats gather to discuss Newtonian physics or string theory? A debating society for biologists?

Not exactly -- it's downtown Washington's newest lounge and nightspot, but one that is a little more cerebral than most.

NBTS has reserved the **second floor Gallery**. Please feel free to join us for **FOOD** and **DRINK**. Meet our members, and learn about our Society, and our Annual Meeting in June, 2009 in Puerto Rico!!!!

Questions: Contact **Sonya K. Sobrian**
(ssobrian@howard.edu)
